98% Natural Deodorant for all the Family

# Our story so far...

SCRUBBINGTONS

Founded in 2020 by Emma & Karen who came from a marketing background... Finding a first roll-on deodorant that's kind to young armpits, actually works and is suitable for tweens was tough. Emma needed it for her son when he turned 9 and so they developed Scrubbingtons 'Pit Stop!' deodorant to help all those active kids who need a bit of help in the whiffy armpit area! They saw a gap in the Bath & Body category for 'natural' skin care for kids as the trend for sustainable personal care formulations was gathering pace. Launching a range of hand, body, sanitizing and deoderizing products that were intended to empower kids ( from the age of 8 - 15) to take responsibility for there hygiene particularly following the covid pandemic with products that were high in natural origin and safe to use...

However, the brand hit financial difficulties in 2023 and due to the success of the 'Pit Stop' deodorant in particular on Amazon, they were rescued by market leading entrepreneur and master brand builder, Barry Tong and his wife Katy Tong of Stephenson's Online Retail Ltd in January 2025 this year. Barry's reputation for building brands in the market, in particular with the retail giant Amazon Global is second to none which is why he can boast being in the top 100 sellers on Amazon; given there are 330,000 this is extremely impressive. Now they want to make it available to all everywhere around the globe!
