Our Original Pure Paw Paw Ointment

A topical, multi-purpose ointment made from pure Australian papaya.

This WONDER ointment has gathered a worldwide cult following over the years thanks to its ability to soothe a multitude of skin and beauty woes, like cracked lips, dry skin, mild skin rashes, minor cuts & grazes, dry cuticles, as well as taming brows, fixing flyaway hairs, and soothing all kinds of skin irritation.

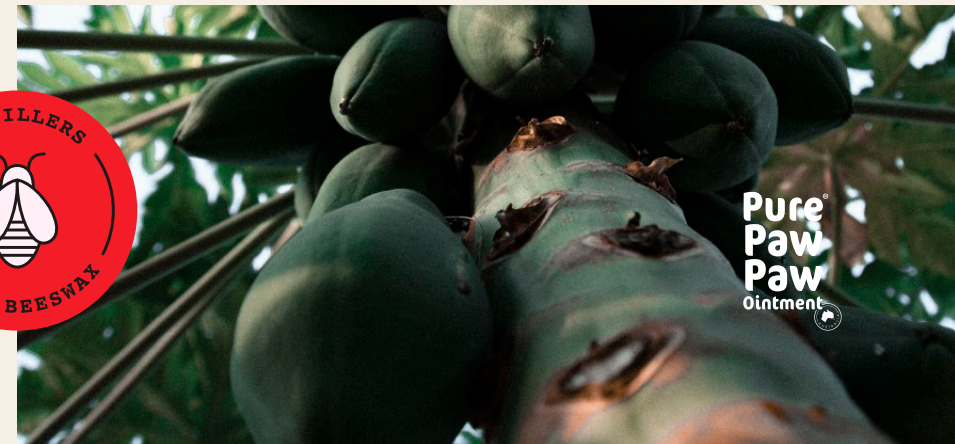

Made in Australia, using quality, fresh - *not frozen*, Australian fruit.

We have perfected the fermentation process and source the highest quality fresh papaya fruit from far North Queensland.

There are tremendous soothing properties fermented papaya fruit can offer.

We believe our refined formula with the exclusion of fillers such as wax, so as not to dilute the active ingredient is why our Pure Paw Paw ointment is far more superior than any other in the market.
